Acceptance_crieteria_Report

Issue key: APS1-9

Summary: TASK 78 for APS1

Description: Description for Task 78 in APS1

Acceptance Criteria: Acceptance criteria for issue type Defect in APS1 with issue key APS-2-5

Strengths:

None

Improvement Areas:

- Missing Given/When/Then structure

- Lack of specific scenarios

- Unclear problem description

Revised Version:

Given the system is in a state where [describe the initial state related to the defect],

When [describe the action that triggers the defect],

Then [describe the expected correct behavior or outcome, indicating the defect is resolved].

Acceptance_crieteria_Report

Issue key: APS1-26

Summary: TASK 183 for APS1

Description: Description for Task 183 in APS1

Acceptance Criteria: Acceptance criteria for issue type Story in APS1 with issue key APS-1-11

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear user actions and system responses

Revised Version:

As there are no acceptance criteria provided, a revised version cannot be created. Please provide the acceptance criteria to revise.

Issue key: APS1-45

Summary: TASK 274 for APS1

Acceptance_crieteria_Report

Description: Description for Task 274 in APS1

Acceptance Criteria: Acceptance criteria for issue type Task in APS1 with issue key APS-1-21

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear expected outcomes

Revised Version:

Given a user is logged in and on the APS1 system

When the user attempts to perform task APS-1-21

Then the system should successfully complete the task and display a confirmation message to the user.

Issue key: APS1-60

Summary: TASK 347 for APS1

Acceptance_crieteria_Report

Description: Description for Task 347 in APS1

Acceptance Criteria: Acceptance criteria for issue type Defect in APS1 with issue key APS-1-27

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear problem statement

Revised Version:

Given the system is in a specific state related to APS1 and defect APS-1-27,

When a user performs a specific action related to the defect,

Then the system should exhibit a specific, measurable, and testable behavior that resolves the defect.

Issue key: APS1-84

Summary: TASK 433 for APS1

Acceptance_crieteria_Report

Description: Description for Task 433 in APS1

Acceptance Criteria: Acceptance criteria for issue type Task in APS1 with issue key APS-1-103

Strengths:

None

Improvement Areas:

- The acceptance criteria are missing.

- The acceptance criteria are not present in Given/When/Then format.

- There is no context, action, or expected result defined.

Revised Version:

Given a specific context or initial state,

When a particular action is performed,

Then a specific outcome or result should occur.

Issue key: APS1-88

Summary: TASK 462 for APS1

Acceptance_crieteria_Report

Description: Description for Task 462 in APS1

Acceptance Criteria: Acceptance criteria for issue type Task in APS1 with issue key APS-2-104

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear acceptance criteria

Revised Version:

As there are no acceptance criteria provided, I cannot provide a revised version. Please provide the acceptance criteria to be evaluated.

Issue key: APS1-91

Summary: TASK 497 for APS1

Description: Description for Task 497 in APS1

Acceptance Criteria: Acceptance criteria for issue type Story in APS1 with issue key APS-2-107

Acceptance_crieteria_Report

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear acceptance criteria

Revised Version:

Given a user is on the login page

When the user enters valid credentials and clicks the 'Login' button

Then the user should be redirected to the dashboard and see a welcome message.

Given a user is on the login page

When the user enters invalid credentials and clicks the 'Login' button

Then an error message should be displayed indicating incorrect credentials.

Issue key: APS1-96

Acceptance_crieteria_Report

Summary: TASK 542 for APS1

Description: Description for Task 542 in APS1

Acceptance Criteria: Acceptance criteria for issue type Defect in APS1 with issue key APS-1-107

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear steps and expected outcomes

Revised Version:

Given the user is logged in and on the APS1 system

When the user attempts to perform action X

Then the system should respond with expected behavior Y

Issue key: APS1-103

Acceptance_crieteria_Report

Summary: TASK 578 for APS1

Description: Description for Task 578 in APS1

Acceptance Criteria: Acceptance criteria for issue type Task in APS1 with issue key APS-2-116

Strengths:

None

Improvement Areas:

- The acceptance criteria are missing entirely. There is no Given/When/Then structure or any other form of documented criteria provided.

- Need to define specific scenarios to test the task's completion.

- The acceptance criteria should be written in a way that is understandable by both technical and non-technical stakeholders.

Revised Version:

Given the task is to be completed,

When the task is done,

Then the expected outcome should be clearly verified and validated.

Issue key: APS1-111

Acceptance_crieteria_Report

Summary: TASK 611 for APS1

Description: Description for Task 611 in APS1

Acceptance Criteria: Acceptance criteria for issue type Story in APS1 with issue key APS-1-112

Strengths:

None

Improvement Areas:

- The acceptance criteria is missing. There is no Given/When/Then format provided. It's impossible to evaluate the quality without the actual criteria.

- Need to define specific scenarios and expected outcomes.

Revised Version:

Since no acceptance criteria were provided, I cannot provide a revised version. A proper example would be:

Scenario: User successfully logs in

Given the user is on the login page

And the user has entered a valid username and password

When the user clicks the 'Login' button

Then the user should be redirected to the dashboard

And a success message should be displayed

Acceptance_crieteria_Report

Issue key: APS1-118

Summary: TASK 654 for APS1

Description: Description for Task 654 in APS1

Acceptance Criteria: Acceptance criteria for issue type Task in APS1 with issue key APS-1-118

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear success criteria

Revised Version:

Given a user is logged in and on the APS-1-118 task page, When the user clicks the 'Start Task' button, Then the task status should change to 'In Progress' and a notification should appear confirming the status change. Given the task is already in 'In Progress' state, When the user clicks the 'Start Task' button, Then an error message should be displayed indicating the task cannot be started again.

Acceptance_crieteria_Report

Issue key: APS1-124

Summary: TASK 693 for APS1

Description: Description for Task 693 in APS1

Acceptance Criteria: Acceptance criteria for issue type Story in APS1 with issue key APS-2-125

Strengths:

None

Improvement Areas:

- Missing Given/When/Then format

- Lack of specific scenarios

- Unclear conditions and expected outcomes

Revised Version:

Since the original acceptance criteria are not provided, I can't create a revised version. Please provide the original acceptance criteria.
